

Mandatory

- Min 2+ years hands on experience on relevant skills in Application development space
- Good communications skills is a must
- Education background – BE or BSC ONLY
- Resumes to be sent via email to cfscgp-profile-coordinator.in@capgemini.com
- Subject line should be the SKILL ID and skillgroup mentioned below to enable a better routing

Please note, we are not considering freshers or less than 2 years overall experience as we already have such profiles internally. Strong hands on experience in application development is a must

Skill ID	Skill	Minimum Requirement
CG001	.Net	<p>There are 3 types of requirement here</p> <p>Type 1: C#.NET MVC, Solid Principles, Web API, SQL Type 2: .NET Core with UI(Angular or React), OOPs concepts Type 3: C#.NET with (Angular or React), OOPs concepts, SQL</p> <p>- Ability to write code, unit test and able to make timely deliveries - Adherence to best practices for design and coding</p> <ul style="list-style-type: none">• Looking for Developers, Sr Developer and leads
CG002	SCALA	<ul style="list-style-type: none">• Experience working on Akka Platform , SCALA Language, Lagom or Lightbend Platform• Experience on working on Akka Actor System.• Good Understanding of the Microservice and Event Driven Architecture• At least one E2E implementation of Project Lifecycle• Minimum 2 yrs hands on experience on this stack• Looking for Developers, Sr Developer and leads
CG003	Microservices	<ul style="list-style-type: none">• Hands-on experience in Java-Spring Boot-Microservices functions, Restful API, event-driven/ reactive programming or other Cloud Native architectures.• Strong knowledge of unit testing with automated frameworks, Devops with tools such as Jenkins, Jira, SVN, Github, Chef, Puppet• Experience in deploying systems into a production Cloud Native Environment - Docker, Kubernetes Services, Pivotal Cloud Foundry (PCF), AWS, Azure or 12 factor app• Solid background in Oracle/No SQL database fundamentals including development and tuning of complex database queries.

		<ul style="list-style-type: none"> • Good to have MEAN / MERN Experience
CG004	Java Full Stack Developer	<ul style="list-style-type: none"> • Strong development experience in all the 3 layers – UI (AngularJS/ReactJS), Middleware(Springboot) and backend (MySQL, or any other NoSQL database) • Good experience in E2E lifecycle – projectsetup, GIT, development, unit testing using Junit, Code coverage, automated builds
CG005	DevOps	<ul style="list-style-type: none"> • Significant experience successfully implementing/configuring CI/CD using using tools – Terraform, GitHub, puppet, Chef, Ansible etc.. • Good working exp on Kubernetes/Docker architecture and perform cluster level operations. • Very good in of experience in writing scripts using Shell, Python, Unix script etc, • Broad knowledge in systems monitoring, alerting and analytics example tools: DataDog, Splunk, New Relic etc.. • Hands-on experience in Terraform/laaC (Infra as a code)
CG006	GoLang	<ul style="list-style-type: none"> • Hands-on experience in Golang-Microservices functions, Restful API, event-driven programming. • Knowledge of GO Packages, Oracle/No SQL database fundamentals. • Strong knowledge of unit testing with automated frameworks, Devops with tools such as Jenkins, Jira, SVN, Github, Chef, Puppet • Experience in deploying systems into a production Cloud Native Environment.
CG007	Azure Developer	<ul style="list-style-type: none"> • Strong experience backend microservices & API development using C#, Node.js, REST, JSON, SQL/NoSQL databases, Docker and Kubernetes • Experience in development & integrations using Azure Cloud Services end to end. • Hands-on setting up and configuring various Azure services (App Services, Function Apps, Logic Apps, Azure SQL, APIM) and Azure AD based Authentication using oauth/OpenIDConnect. • Experience working with Azure storage services such as Blob, Data Lake, Table Storage, and Cosmos DB • Experience working with MS SQL • Hand-on experience on managing CI/CD including Azure DevOps, ARM Templates, SONAR and other integration tools as part of development.
CG008	Core Java Developer	<ul style="list-style-type: none"> • Hands-on experience in JDK 8/11, Java Collection, Multithreading, Spring Framework (Core, MVC) & ORM framework (Hibernate). • Hands-on experience Web Services SOAP & Rest. • Strong knowledge of unit testing with automated frameworks, Mockito, RestAssured, Maven, Devops tools such as Jenkins, Jira, SVN/GitHub/GitLab, Sonarqube.

		<ul style="list-style-type: none"> • Experience in deploying systems into a production Environment like WebLogic, WebSphere, Apache-Tomcat etc.. • Solid background in Oracle/MySQL/No Sql database fundamentals including development and tuning of complex database queries.
CG009	Mulesoft Developer	<ul style="list-style-type: none"> • Minimum 1+ years on Mulesoft (developer), Minimum 3+ yrs of relevant experience for Sr Dev and above roles • Experience in implementing Integrations, Web Services, Messaging flow • Hands on development on Mulesoft – 1+ Yrs exp • Mulesoft Developer or above level certification (nice to have) • Understanding of Integration Development Methodologies
CG010	Webmethods developers	<ul style="list-style-type: none"> • In-depth ESB knowledge • In-depth web service development knowledge • RESTful service development • More than one adapter knowledge • BPM / TN / CAF concepts (Any one)
CG011	Business Analyst	<ul style="list-style-type: none"> • Minimum 5 yrs experience, with Minimum 2 yrs relevant experience creating Requirement documents • Strong communications skills and experience in coordinating with clients personnel to capture requirements • Understanding of relevant domain and process flows • Ability to capture process flows, state changes, events, triggers etc • Ability to define test strategy, and early verification of the developed application
CG012	Scrum Master	<ul style="list-style-type: none"> • Minimum 5 yrs IT experience with 2+ yrs in role of scrum master • Should be certified • Experience in managing Agile teams, backlog, sprint planning • Managing daily stand ups • Strong understanding of agile
CG013	UI (AngularJS or ReactJS)	<ul style="list-style-type: none"> • Strong development experience in using Angular 5 + / ReactJS, Javascript and HTML/CSS • Good understanding of server-side CSS pre-processing platforms such as LESS and SASS • Experience with REST • Unit testing using Karma, SinonJS • Good Knowledge on Node JS / service side technologies.
CG014	RPA	<ul style="list-style-type: none"> • Hands-On experience in designing and implementing of UiPath automated workflows and packages • Hands-On development experience building custom UI Path activities using .Net Framework and C# • Hands-On experience of UiPath RE-Framework (Robotic Enterprise Framework) concepts, processes, workflows, elements, coding standards

		<ul style="list-style-type: none"> • Strong understanding architectural concepts of a UiPath Enterprise automation solution and microservice based architecture • Hands-On experience of business process technical mapping and process automation design • Hands-On development experience in .Net Framework, VB, C#, Power Shell Scripting, Python • Hands-On development experience in RDBMS (Oracle, SQL Server, MySQL) and Elastic Search • Hands-On experience of basic programming and OOPs concepts • Possessing UiPath Certified Advanced RPA Developer certificate from UiPath Academy
